

Perdue Announces Additional Hurricane and Wildfire Recovery Details

Just last week I shared with you a news release dated April 6th from USDA that announced the new Wildfires and Hurricanes Indemnity Program. I've sent you this news release today that covers the details on eligibility for the program. Sign-up for the new program will begin no later than July 16. FSA will distribute more information on how producers can file claims for WHIP disaster payments at a later date. I've included the article below, as well as a web-link that will take you directly to the USDA-FSA Newsroom page.

https://www.fsa.usda.gov/news-room/news-releases/2018/nr_20180501_rel_0059

(Washington, D.C., May 1, 2018) – Under the direction of President Donald J. Trump, U.S. Secretary of Agriculture Sonny Perdue today announced new details on eligibility for a new U.S. Department of Agriculture (USDA) disaster program, [2017 Wildfires and Hurricanes Indemnity Program](#) (2017 WHIP). In total, USDA's [Farm Service Agency](#) (FSA) will deploy the up to \$2.36 billion that Congress appropriated through the Bipartisan Budget Act of 2018 to help producers with recovery of their agricultural operations in at least nine states with hurricane damage and states impacted by wildfire. Following the announcement, Secretary Perdue issued this statement:

"Last year our nation experienced some of the most significant disasters we have seen in decades, some back-to-back, at the most critical time in their production year. While USDA has a suite of disaster programs as well as crop insurance available to help producers manage their risk, Congress felt it was important to provide extra assistance to our nation's farms and ranches that were the hardest hit last year," **Secretary Perdue** said. "At President Trump's direction, our team is working as quickly as possible to make this new program available to farmers in need. Our aim is to provide excellent customer service, building on efforts which began the day the storm hit."

Key Updates Include:

- **Hurricane Recovery:** To be eligible a crop, tree, bush or vine must be located in a primary disaster county with either a Presidential declaration or a Secretarial designation due to a 2017 hurricane. Crops, trees, bushes or vines located in other counties may also be eligible if the producer provides documentation the loss was caused by a 2017 hurricane.
- **Wildfire Recovery:** Any crop, tree, bush or vine, damaged by a 2017 wildfire is eligible.
- **Eligible Producers:** Eligibility will be determined on an individual basis, using the level of insurance coverage purchased for 2017 for the total crop acres on the area for which the WHIP application is made. Eligible producers who certify to an average adjusted gross income (AGI) of at least 75 percent derived from farming or ranching, including other agriculture and forestry-based businesses during the tax years 2013, 2014 and 2015, will be eligible for a \$900,000 payment limitation with verification. All other eligible producers requesting 2017 WHIP benefits will be subject to a \$125,000 payment limitation.

- **Crop Insurance Requirement:** Both insured and uninsured producers are eligible to apply for WHIP. However, all producers opting to receive 2017 WHIP payments will be required to purchase crop insurance at the 60% coverage level, or Noninsured Crop Disaster Assistance Program (NAP) at the 60% buy up coverage level if crop insurance is not available. Coverage must be in place for the next two applicable crop years to meet program requirements.
- **Acreage Reporting Requirements:** In addition, for the applicable crop years, all producers are required to file an acreage report and report production (if applicable).

- **Payment Formula:** FSA will calculate WHIP payments with this formula:

Payment = Expected Value of the Crop x WHIP Factor - Value of Crop Harvested - Insurance Indemnity
The WHIP factor ranges from 65 percent to 95 percent. Producers who did not insure their crops in 2017 will receive a 65 percent WHIP Factor. Insured producers, or producers who had NAP, will receive between 70 percent and 95 percent WHIP Factors; those purchasing higher levels of coverage will receive higher WHIP Factors.

Other USDA Disaster Assistance

Drought, wildfires and other disasters continue to impact farmers and ranchers, and 2017 WHIP is just one of many programs available through USDA to help with recovery. From crop insurance to on-the-ground rehabilitation programs like the [Emergency Conservation Program](#) (ECP) and [Environmental Quality Incentives Program](#) (EQIP), USDA is here to help. The Bipartisan Budget Act of 2018 provided funding for ECP and the [Emergency Watershed Protection Program](#). The [Act also provided amendments](#) to make programs like the Emergency Assistance for Livestock, Honeybees and Farm-raised Fish Program, Tree Assistance Program and Livestock Indemnity Program even more responsive.

More Information:

FSA will hold a sign-up for 2017 WHIP no later than July 16. Additional information on WHIP is available on [FSA's 2017 WHIP webpage](#). For immediate assistance under any of our other disaster programs, please contact a [local USDA service center](#) or learn more at www.fsa.usda.gov/disaster.
